SOLDIER SHOT, DIES— BEAVER DAM THE SCENE

Private Ed Doss, charged with being a deserter from the U. S. Army, while attempting to escape those who were seeking his capture and return to Camp Knox, was shot by Private Odie Allen, in Beaver Dam, Monday night from the effects of which he died early the next morning, while being conveyed to Camp Knox. It seems that Allen had been placed as a guard over the prisoner, when he made his escape, and that he had pursued him from camp to Beaver Dam, and when Doss refused to obey the command to halt, fired at the fleeing man probably more than once, at least one shot taking effect in the soldier's head. It is said that Allen was without funds for returning to Camp Knox. He reported the incident to the Authorities there and received orders to bring the wounded Soldier back to camp at once. While enroute and before reaching there, he succumbed. The dead soldier is said to have been a resident of Central City, where the home of Allen is probably in Butler County.
